AGENTIC CATALYST

A rapid-development program to help enterprises identify, build, and launch outcome-driven AI agents tailored to a high automation potential business process – delivering measurable ROI in short time.

Why Now

Many enterprises find themselves caught in an AI readiness trap, spending endless cycles in discovery and enablement. Each day enterprises fail to embed Agentic AI into their workflows is a win for their competitors.

SoftServe's Agentic Catalyst is a 30-day accelerator designed to move from theory to ROI – fast. You'll validate

3 functional AI agents in live workflows, allowing your company to move forward **towards Agentic Enterprise Operations** confidently, delivering business value from Day One.

30
DAYS

YOU GET

01

Developed 3 agents for selected use case

02

Business Case for Agentic Enterprise Operations enablement program

03

Target Architecture - long term vision and immediate next step

What's Included

- **Rapid Assessment** of the identified use case incl. collecting necessary for business case metrics
- **Agentic Workflow design & development** around your data, tools, and goals
- Agentic **AI Ecosystem Architecture** & integrations plan design
- High level **Business Case development** for your use cases and overall agentic opportunity
- Development of governance-ready **Rollout Plan** for enterprise-wide agent rollout & adoption

Why It Works

- Outcome-driven, not just experimental
- Built for your workflows, not generic templates
- Designed for speed, ROI, and scale
- From kickoff to measurable impact in 30 days

Path To Agentic Enterprise

Prove Value with Agentic Catalyst

Prove Agentic AI value & ROI. Build Agentic Enablement Strategy outline. Setup and validate AI Technology foundations.

Enable Growth

Design Governance, Agentic Enablement and Operating models. Extend AI technology ecosystem & setup security guardrails to prepare for scale.

Launch Agentic Factory

Build and implement agents across business units thru Agentic Factory.

Operationalize & Drive Adoption

Operate agents at scale with continuous monitoring, support, improvement and value tracking.
