AI/ML SOLUTIONS OPTIMIZED FOR CISCO BY SOFTSERVE

Harness the power of AI/ML for enhanced business outcomes

SoftServe's AI/ML professionals bring best practices in data science and proprietary analytic algorithms to create custom solutions optimized for Cisco environments. Our tailored AI/ML solutions streamline operations, solve complex business problems, and enhance overall efficiency.

COMPLEMENTS CISCO

SoftServe's deep expertise in custom AI solutions perfectly complements Cisco's Generative AI initiatives, driving transformative solutions across industries like retail, healthcare and manufacturing. With a portfolio of over 100 successful AI projects and collaborations with leaders like NVIDIA, we seamlessly integrate AI tools into Cisco's infrastructure, utilizing products such as Intersight, Nexus HyperFabric, UCS. This ensures accelerated deployment and scalable, innovate solutions that enhance operational efficiency.

COMPREHENSIVE AI/ML SOLUTIONS

SoftServe's AI/ML services integrate seamlessly with Cisco technologies, offering a wide range of solutions to optimize your business processes and drive innovation:

Streamlined AI Products and Services: Utilize Cisco's AI Validated Design Solutions to streamline AI products and services, ensuring efficient deployment and integration across your infrastructure.

Custom AI/ML Solutions: Develop tailored AI/ML products and services to solve complex business problems, leveraging Cisco's advanced capabilities and SoftServe's expertise.

Intelligent Automation and Industrial Quality Control: Implement intelligent automation and enhance industrial quality control at the edge, utilizing Cisco's robust edge computing technologies.

MLOps and Observability: Scale AI projects with resilient on-premises and cloud infrastructure, ensuring robust MLOps practices and comprehensive observability.

STRATEGIC EXPERTISE

SoftServe's AI/ML experts leverage their deep knowledge and experience to deliver cutting-edge solutions optimized for Cisco environments. Our approach combines strategic expertise with advanced technologies to drive meaningful business outcomes.

OPERATIONAL EFFICIENCY

By integrating AI/ML solutions with Cisco's advanced technologies, SoftServe enables businesses to enhance operational efficiency and drive innovation. Our solutions streamline processes, improve decision-making, and provide actionable insights for sustained success.

RESILIENT INFRASTRUCTURE

SoftServe's AI/ML solutions are designed to scale with your business, utilizing resilient on-premises and cloud infrastructure provided by Cisco. This ensures that your AI projects can grow and adapt to meet evolving business needs and technological advancements.

SECURITY AND COMPLIANCE

SoftServe places a strong emphasis on security and compliance. The AI solutions incorporate built-in security measures such as role-based access control, secure boot, and data encryption. This ensures that AI applications and data are protected, aligning with Cisco's commitment to security.

KEY BENEFITS

Streamlined AI Integration: Efficient deployment of AI products and services using Cisco's AI Validated Design Solutions.

Custom AI/ML Solutions: Tailored solutions to solve complex business problems.

Intelligent Automation: Enhanced automation and quality control at the edge.

Scalable Infrastructure: Resilient infrastructure for scaling AI projects.

Operational Efficiency: Improved efficiency and decision-making through advanced AI/ML technologies.

Innovation: Drive innovation and stay ahead in the competitive landscape.

WHY CHOOSE SOFTSERVE?

SoftServe is a leader in AI/ML innovation, with a proven track record of delivering custom solutions optimized for Cisco technologies. Our expertise in data science and advanced analytics ensures that we provide top-tier AI/ML solutions tailored to your specific needs. Trust SoftServe to enhance your operations and drive business success with cutting-edge AI/ML technologies.

SoftServe works closely with AI leader NVIDIA. We are a member of NVIDIA's Service Delivery Partner - Professional Services (SDP-PS) program, recognizing us as a reliable AI consulting authority. Last year SoftServe received the Outstanding Impact Partner of the Year award from NVIDIA in recognition of its significant impact and areas of expertise.
