

3 Agents in 30 days — ROI first approach to Agentic Enterprise

softserve

AWS AGENTIC ACTIVATOR

Powered by SoftServe

A rapid-development program to help enterprises identify, build, and launch outcome-driven, secured, scalable multi-agent solution tailored to a high automation potential business process – delivering measurable ROI in short time

Why Now?

Many enterprises find themselves caught in an AI purgatory, spending endless cycles in discovery and enablement. Each day enterprises fail to embed Agentic AI into their workflows is a win for their competitors.

SoftServe's AWS Agentic Activator is a 30-day accelerator designed to move from theory to ROI – fast.

You'll validate **3 functional AI agents** in live workflows, allowing your company to move forward **towards Agentic Enterprise** confidently, delivering business value from Day One.

What's Included

- **Rapid Assessment** of the identified use case, including comprehensive data collection and key metrics required to build a strong business case.
- **Agentic Workflow design & development** around your data, tools, and goals
- **Agentic AI Ecosystem Architecture & integrations** plan design
- High level **Business Case development** for your use cases and overall agentic opportunity
- Development of governance-ready **Rollout Plan** for enterprise-wide agent rollout & adoption

Deliverables

30 Days*

- ✓ Developed 3 agents for selected use case
- ✓ Business Case for Agentic Enterprise enablement program
- ✓ Target Architecture — long term vision and immediate next step powered by SAMP and Amazon Bedrock AgentCore

Why It Works?

Outcome-driven,
not just
experimental

Built for your
workflows,
not generic
templates

Designed for
speed, ROI, and
scale – enabled
with SAMP

From kickoff
to measurable
impact in 30
days*
