

MODULAR LANDING ZONES TO GET YOU ON YOUR PATHWAY TO GOOGLE CLOUD SUCCESS

GOOGLE CLOUD JUMPSTART: FAST-TRACK YOUR CLOUD JOURNEY

Our Google Cloud Jumpstart program is designed to accelerate your adoption of Google Cloud through modular landing zones, facilitating secure deployment, utilization, and scalability of Google Cloud services.

UNLOCK THE FULL POTENTIAL OF GOOGLE CLOUD

ACCELERATED DEPLOYMENT	STANDARDIZATION & CONSISTENCY	WORKLOAD SPECIFICITY
Get your new environment up and running in just two weeks. Our approach includes readiness checks, workshops, and a foundational setup to ensure a smooth transition.	By leveraging infrastructure as code (IaC), your core infrastructure is treated like an application, ensuring a consistent implementation that adheres to best practices and security recommendations and avoids misconfiguration.	Implement the right Google Cloud services specific to your workload requirements. Our standardized templates are aligned to workloads such as data analytics, AI/ML, and application management to reduce complexity and implementation timelines.

WHY GOOGLE CLOUD JUMPSTART?

Governance and Control:

Experience centralized governance and take full control of your cloud resources. Define and enforce policies related to resource usage, access control, and compliance to streamline management across multiple projects and teams.

Cost Management:

Master the art of cloud budgeting with effective cost management strategies. Achieve efficient resource allocation and avoid unnecessary expenditure, maximizing your return on investment.

Security and Compliance:

Establish a consistent security baseline from the get-go, ensuring access controls, encryption, logging, and monitoring to meet your organizational requirements.

KEY DELIVERABLES

Architecture vision documentation

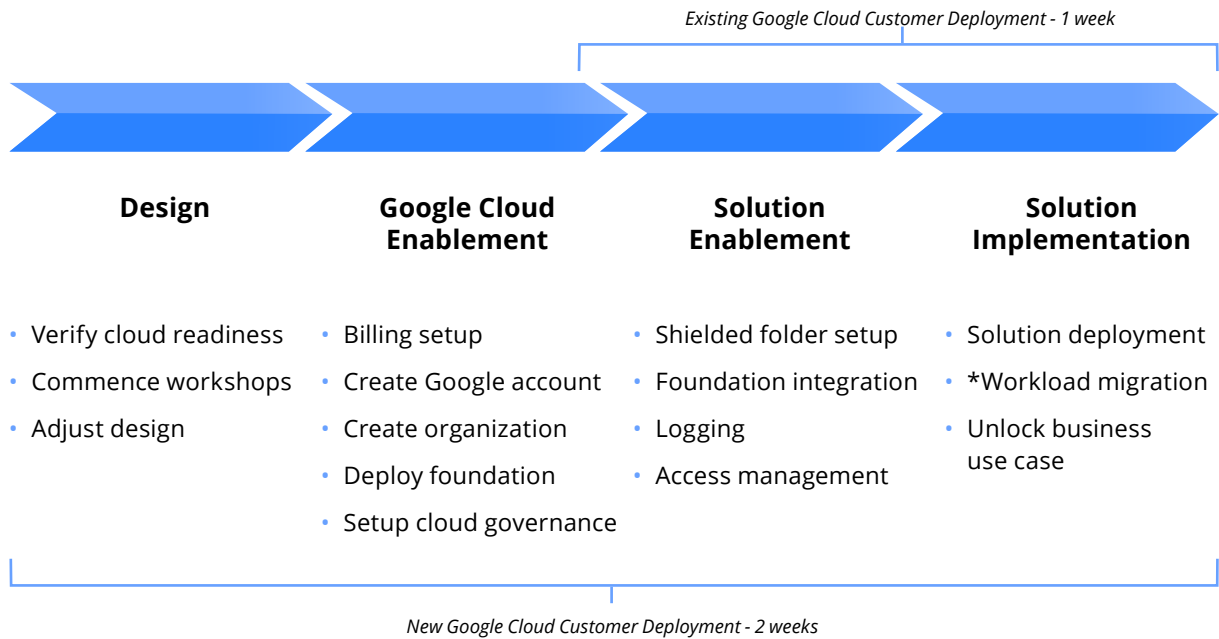

Ready-to-use Google Cloud environment with deployment and IaC management templates

Baseline Google Cloud Enablement to manage your new environment

ACCELERATE GOOGLE CLOUD DEPLOYMENTS

IMPLEMENTATION TIMELINE

*Workload migration or implementation as it is defined by the solution

GOOGLE CLOUD EXPERTISE

SoftServe is a **Premier Google Cloud Partner** with deep and recognized expertise in leveraging advanced technologies like artificial intelligence, machine learning, and data analytics. **We've successfully delivered hundreds of projects** for clients ranging from Fortune 100 enterprises to digital-native startups.
